REPORT OF THE FAMILY PHYSICIANS OF OREGON PAC

The Family Physicians of Oregon PAC (OAFP PAC) is organized to support OAFP policy advocacy through expenditures on Oregon state elections. The OAFP PAC targets support for lawmakers who are shaping the future of primary care in Oregon, and it is the professional responsibility of all members of the medical community to be involved in the political process.

Membership in the PAC is annual, based on the calendar year. If you are not sure if you have donated to the PAC, check with OAFP Staff. Online donations are welcome at any time; recurring donations of \$25/month or more are especially welcome.

The PAC Board continues to work toward increasing annual participation. In 2022, we had record participation from a successful giving drive at the Annual Conference, and additional donations in the fall. As the largest medical specialty society in Oregon, a stronger PAC with better ability to support candidates who understand OAFP members' issues would amplify our voice. If you have not yet contributed to the PAC this year, you can help us reach that goal. **We have a generous stacked giving challenge in play this weekend. [Contribute today!](#)**

2023-2024 Activities

OAFP members contributed just over \$1,900 so far this fiscal year; many members from 2023 have not yet renewed their giving so don't wait! Check the list at the end of this report. We are working with Iris Maria Chavez, our government affairs contractor, to plan for the upcoming election season.

PAC Leadership

We are actively seeking additional PAC Board members! This group meets twice per year, and renewable terms are two years. The PAC is nonpartisan, and particularly seeks representation from rural Oregon. Any contributor to the PAC is eligible to be nominated to the PAC Board. Several new PAC Board members are needed, so please consider volunteering!

Current OAFP PAC Balance (as of 4/12) \$11,657

C&E Systems, our PAC management vendor, provides accounting services for the funds, receipts to contributors, and ensures required regulatory reporting is completed. Check the list of members below, and if you don't see your name, make your contribution today!
