Resolution #2

Introduced by: Alex Kipp, Carrie Pierce, and Nellie Wirsing

Subject: Decriminalization of Abortion Provision

WHEREAS the AAFP supports efforts to protect physician autonomy and the patient physician relationship without unnecessary interference by legislative authorities\(^1\), and

WHEREAS one in four women in the United States will have an abortion by the age of 45\(^2\), and

WHEREAS several studies internationally show that access to safe abortion significantly decreases maternal morbidity and mortality\(^3\), and

WHEREAS the AAFP has resolved that it supports a woman's access to reproductive health services and opposes non-evidence-based restrictions on medical care and the provision of such services\(^4\), and

WHEREAS first trimester abortions have a very low rate of complications requiring hospitalization, approximately 0.5% or less\(^5\), making them one of the safest office procedures physicians perform, and

WHEREAS targeted regulation of abortion providers (TRAP) bills severely limit abortion providers, with provisions including but not limited to: requiring facilities providing

abortion care meet the same standards as ambulatory surgical centers\(^6\), and prohibiting physicians from providing abortions if they do not have direct admitting privileges to or affiliation with a hospital\(^7\), and

WHEREAS studies have shown that there is no difference in the complication rates between procedures performed in outpatient clinics versus in ambulatory surgical centers\(^8\), indicating these limitations are medically unnecessary, and

WHEREAS physicians should act in the best interest of the patient using evidence-based practices, and this ethical practice should not be criminalized\(^9\); therefore

RESOLVED the OAFP will propose to the AAFP that they endorse all ACOG statements that oppose legislation that targets family doctors who provide abortion services, and

RESOLVED the OAFP will propose that the AAFP issue a position paper against the practice of criminalizing physicians for providing abortion care.
